Any other comments regarding the curriculum

Students should be aware about the different fields in the pharma industry. One such booming field is medical communications (Medical writing). We can have introductory lectures for students to create awareness about this field. Sign [Signature]

Any other comments regarding the curriculum of PCI Syllabus

As a industry representative, I got an opportunity to work in pilot lab & interacting with students. Pilot lab is well equipped & having GMP equipments which almost is simulation of industrial equipments. Full capacity utilization of pilot lab is required to bring industry-Academy gap closer and students are trained before going to industry in future. My suggestion is to start with smaller project from industry & students actively work with industry representative to complete their requirement successfully in terms of quality documentation & presentation.

Any other comments regarding the curriculum of PCI Syllabus

MCA pattern is good which helps in
G.P.A.T. preparation. Some topics give deep
information. It is useful.
