## National Service Scheme Activities

### Special Camp Report [2018-19]

5<sup>th</sup> Jan to 11<sup>th</sup> Jan 2019

National Service Scheme (NSS) camp was organized by AISSMS College of Pharmacy in collaboration with AISSMS Institute of Management, funded by Savitribai Phule Pune University (SPPU) during the period of 5<sup>th</sup> Jan to 11<sup>th</sup> Jan 2018 at Hivare Village, Saswad Taluka, District-Pune. NSS was established in 1969 with a vision of personality development of students by motivating them towards social service as well as development of rural areas in India. NSS Unit has been introduced in colleges with an optimism of establishing a sense of social responsibility amongst students and inculcating values of self-discipline and selfless dedication towards community development. The main motive of the NSS Special Camp is to experience and understand the ups and downs of the village life and to assist the development and prosperity of the rural area.

As a part of NSS Activities, a 7 day camp was held by AISSMS College of Pharmacy at Hivare Village, Saswad Taluka, District-Pune. Various social activities were held with a sole view of rural development and value education. We, being a part of the cultural committee, undertook various cultural activities in the village to promote interaction with the villagers and used the NSS platform to spread awareness about different social issues.

### **Organ Donation Awareness Drive**

AISSMS College of Pharmacy is going to organize Organ Donation Awareness Drive on 14<sup>th</sup> August 2018. Organ transplantation gives thousands of children and adults each year a renewed chance at living full and active lives. One single organ and tissue donor can save or improve the lives of more than eight people, helping to restore eyesight, damaged tissues or vital functions. However, the need for organs and tissue outweighs their availability.

Therefore to spread the awareness regarding organ donation, National Service Scheme Unit along with AISSMS Pharma Graduates Association organized a campaign. Our students spread awareness and got the organ donation pledge filled online. The activity was coordinated by Mr. Rahul Padalkar, NSS Program officer, Dr. Sachin Tembhone and Dr. Shashikant Bhandari, APGA advisor under the guidance of Dr. Ashwini R Madgulkar

### **STREET PLAY ON “THE ILL EFFECTS OF ALCOHOLISM”**

The street play was conducted in the evening at the Gram panchayat office. Our students rehearsed and performed a street play on the topic of “THE ILL EFFECTS OF ALCOHOLISM” with a view to spread a message amongst the villagers about the negative impact of alcoholism on the society. The villagers responded with great enthusiasm. Our students also performed a patriotic song to spectacle the love and respect for our nation. The programme was successful in proving the spirit of the people living in rural area and earned great response and appreciation from the people.

### **HEALTH AWARENESS PROGRAMME**

A medical health check-up camp was set up in the village by the NSS students. This is one of the most important activities held by the NSS unit as it focuses on the welfare of the populace and provide the essential healthcare services free of cost. In this health check-up drive, proper medical treatment of the people of Hivre and nearby area was done and remedial measures were provided, all free of cost, including the basic medicines required for an early recovery. The aim of the health camp was to administer Health Awareness, provide health counseling and to avail the healthcare services to the people which might be unavailable generally.

The students were given the task of taking down the details of the people who came for this health check-up and guide the people for the same. The people encouraged to do simple activities on a regular basis to get rid of the excessive body pain. Check-up was performed on every patient. After that, they were sent to their respective doctors where they were appropriately given the right directions regarding their health. The doctors carefully listened to the problems that patients were facing and provided an appropriate solution to cure it. Majority of the people were suffering from chronic joint pain and high/low blood pressure. The camp lasted for four hours, from 10am to 2pm. More than 80 people attended the camp.
