Department of Pharmaceutics and Drug Delivery
School of Pharmacy

Dear Mr. Hrushikesh Dilip Sambare,

The Department of Pharmaceutics and Drug Delivery wishes to thank you for your interest in enrolling in our Master's in Pharmaceutical Sciences with emphasis in Pharmaceutics program. Our Department is always trying to improve the quality and availability of this program to all qualified students. Since 2016, our Master's program has achieved **100% graduate placement**.

This Letter is to offer you admission to the Master's in Pharmaceutical Sciences with emphasis in Pharmaceutics program starting in the Fall 2020 semester. This admission is to be from August, 2020 through July, 2021. This is a 2-year program. Your admission may be extended for the second year as per the guidelines designated by our Department and the University of Mississippi's Graduate School (e.g. maintaining a 3.0 GPA for your graduate courses).

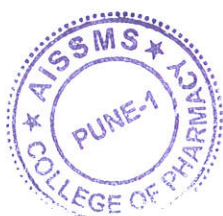

A great benefit of this program is that should you perform well in this Master's program, you would be considered for our Ph.D. in Pharmaceutical Sciences with emphasis in Pharmaceutics program, which would provide a stipend and a full tuition waiver.

Another exciting advantage to our program is that all Master's students will engage in our "Hands-On Course in Tablet Technology" (\$3000 value), which is attended by scientists from industry, government agencies (e.g. FDA) and academia. To find out more about this opportunity please visit: www.tabcourse.com

You will be granted admission to the Department of Pharmaceutics and Drug Delivery upon agreement to the following conditions:

- 1.) The student will be totally self-funded for the entire 2-year duration. There will be no graduate research assistantships and/or tuition waivers from the Department of Pharmaceutics and Drug Delivery or The University of Mississippi. The student may be permitted by the Department Chair to accept on campus student worker positions (no tuition waiver) in the Pharmaceutics and Drug Delivery Department, *as well as other units within the University*. The Department of Pharmaceutics and Drug Delivery will offer funding for student workers (no tuition waiver) starting in the 2nd year. A student can work in a student worker position for *up to 20 hours per week*.
- 2.) The student will be responsible for tuition, books, meals, housing, insurance and transportation to and from classes.
- 3.) The student will not seek employment outside the University for any type of work during the fall or spring semesters. However, the student may apply for external internships during the summer or the December/January break.

Should you agree to these conditions, you will be assigned your responsibilities for courses to be taken and your research activities. The granting of your admission carries the responsibility of completing your course work and your thesis work required to successfully complete your Master's degree. The Faculty of the Department makes an evaluation of all graduate students annually and a satisfactory evaluation must be attained for continuation of your work toward your Master's degree. Based on your performance in the Master's program, and the availability of funding in the Ph.D. program, you may be considered for progression into the Ph.D. program following completion of the Master's program.

Please acknowledge acceptance of this appointment by signing on the space provided and returning a copy of this letter to me as soon as possible by email.

I heartily welcome you as a graduate student in the Master's in Pharmaceutical Sciences with emphasis in Pharmaceutics program in the Department of Pharmaceutics and Drug Delivery and look forward to working with you toward your degree and your future.

Best Regards,

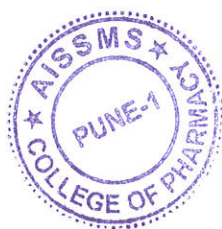

Dr. Michael A. Repka
Chair & Professor
Department of Pharmaceutics and Drug Delivery
