Activity Report RANANGAN 2019 – 2020

Ranangan is the most awaited event of A.I.S.S.M.S college of pharmacy. Students participate in various sports with enthusiasm and passion. It includes both indoor as well as outdoor events. The indoor events were held on 3rd & 4th September in auditorium. Indoor events included carrom, chess, table tennis & arm wrestling.

Art cannot be separated from sports, some events like handwriting, mehendi were held to bring up the artistic talent of students. Indoor group events like rangoli , flower arrangement were also held in the college premises.

Final year got the lead in indoor events by winning in all formats of carom and chess(boys) whereas chess (girls) was conquered by **first year**. Badminton was conducted on 7th september at COEP's Badminton court. All the formats of badminton matches were conducted and students participated with great enthusiasm. **Final year** won the Badminton mixed doubles & girls category whereas Seconds stood runner up.

To show the sportsmanship spirit on field, outdoor events were commenced on date **12 Feb to 15 Feb 2019**. A list of energetic events were conducted such as cricket, basketball, football, throwball, tug of war, etc.

Cricket is most liked game for Ranangan , the trophy of cricket was won by **Mpharm**. The most interesting nail biting match of volleyball was won by **Mpharm** by defeating final yr in the finale round. Basketball is a full court game. Half court in basketball didn't reduce the enthusiasm of students but added more passion. Second year won in boys category and first year in girls category. Definitely girls have equally participated in all the sports. Throwball is a game played by girls. **Final yr** won throwball by defeating all other classes.

Tug of war and football were two other events organised. The strong and muscular's of **first yr** won the tug of war in both categories (boys & girls). **Third year** won the Football match at the last seconds of match "a complete thriller" it was. The unity and supportive attitude of the students was judged for the class event called collage making. Collage competition was conquered by **final yr** for their unity and major participation. To support the class and bring up the fire of opponents, students created a meme wall. Memes were used to cheer and support in a sarcastic manner, which came out as an joyful part of ranangan. All the events were organised by final yr sports secretaries and coordinators under the guidance and supervision of sports teacher incharge Dr.S.V.Bhandari sir and Sports committee member Dr.M.M.Bandivadekar sir. **Second yr** came out as an **runner up** for Ranangan. Every class performed well but there can be only one winner. The **winner** for Ranangan 2019-20 was **Final yr**.

AISSMS COLLEGE OF PHARMACY,

KENNEDY ROAD,PUNE-01

RANANGAN

2018-2019

EVENT:CARROM

RULES:

SINGLES:

Sit opposite to each other. The game is often played as singles with two opponents, although sometimes people play Carrom in teams. At any rate, teams or players should sit opposite from one another. You and your partner, or your team and your partner's team, should take a seat at opposite ends of the board. You should each have your own rectangle from which to shoot your striker.

Continue playing until the conclusion of the first round. A round of carrom ends when one player pockets all of his or her pieces, and the queen has been pocketed.

- Remember, you and your opponent take turns shooting your striker. You can only shoot your striker from within your rectangular boundary.
- In the event you pocket a piece, you get to continue to play. You can shoot your striker again, and can continue to shoot your striker until you fail to pocket a piece.

Follow rules regarding the queen. The queen, or red piece, has to be pocketed by the end of a round. A player must both pocket and "cover" the queen. Covering the queen simply means one player has pocketed the queen following the rules of the game. Under certain circumstances, you can pocket the queen but not "cover" it, and the queen will be returned to the board.

- You cannot pocket the queen until you've pocketed at least one piece in your color. In the event you pocket the queen before pocketing any pieces, you have not covered the queen. The queen will be returned to the center of the board.
- If you pocket the queen after pocketing one of your own pieces, you have successfully covered the queen. The queen will not be returned to the board and you may receive points for the queen at the conclusion of the round.

Penalize players for fouls. There are fouls in the game of carrom. In the event you or your opponent commits a foul, you are penalized by having one of the pieces in your color returned to the board. The following situations can result in a foul:

- If you accidentally pocket a striker, this is a foul. You will also receive a foul if you knock your striker or another piece off the board.
- If you pocket an opponent's piece, this is a foul. In addition to having one of your pieces returned to the board, pocketing an opponent's piece comes with an additional penalty. If you pocketed and covered the queen earlier in the game, the queen is also returned to the board.

- If you pocket your final piece before the queen has been pocketed, both the piece you pocketed and the penalty piece are returned to the board. In other words, two pieces are returned to the board in this case.
- If you touch any piece besides your striker, this is a **foul**.

Continue playing a round until one player has pocketed all of his or her pieces. The first player to pocket their pieces wins the round, and is then awarded points. However, a round cannot end with the queen still on the board. The queen must have been pocketed and covered by one player for the round to conclude.

Core each round properly. To determine your score, count how many pieces your opponent still has on the board.

THE RULES ARE SAME FOR DOUBLES
